

SHARING THE TRADITION

# AVOCADO

HASS - ZUTANO - FUERTE

## HASS

Known for changing the color of its skin from green to blackish purple when maturing. It has a thin, grainy skin, but flexible, and its pulp is pale green with a creamy texture.

## ZUTANO

Smooth and shiny in appearance. With thin, light green skin. Its size is medium to large with a pale green pulp and a smooth texture.

## FUERTE

Easy to peel due to its soft and thin skin. It is known for having a creamy, pale green pulp and for being medium to large in size.

# AVOCADO

## Characteristics

The avocado is a fruit rich in nutritional properties and in vitamins, A, B6, E and C. It is capable of fully covering the main nutritional needs of the human body as it is a good polyunsaturated fat.
